

Weather Science: Create your own Weather Diary

Every week make a note of the temperature and the weather in your own special way, so that by the end of the school year you will have created your own weather diary!

Task:

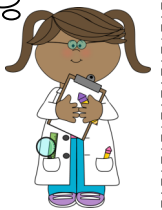

Every Monday, complete the “weather chart” as explained below:

- In the first box make a note of the temperature.
- In the second box put the right coloured sticky dot, according to your class temperature.
- In the third box draw a symbol that shows the weather conditions

For example:

For a cloudy day use , for a stormy day use  etc.

Don't forget to use the correct measurement unit!

At the end of each month, fill the two boxes with the coloured dot and the weather symbol you used more often.

September:

September			
Date	Temperature	Colour	Weather Symbol
Monday, 18.09.17			
Monday, 25.09.17			
September			

October:

October			
Date	Temperature	Colour	Weather Symbol
Monday 02.10.17			
Monday 09.10.17			
Monday 16.10.17			
Monday 23.10.17			
Monday 30.10.17			
October			

November:

November			
Date	Temperature	Colour	Weather Symbol
Monday 06.11.17

Now that you have finished your weekly weather diary, can you create a weather chart for the whole year by colouring in the respective boxes in the above tables?

How does it compare to other countries?
